

San Juan County Food and Farmland Questionnaire

This survey will help the Agricultural Resources Committee of San Juan County figure out how much food we grow in the islands, and how much farmland we have. This survey is specifically designed to gather information from home gardeners and non-commercial food producers. A much more extensive survey has been developed for commercial producers. If you have not filled out the larger producer survey, please take a moment to give us your input. You may also complete the survey by phoning 378-6621 (M, T, Th).

1. Island _____
2. Do you produce food for household? _____ Others _____ Number of people _____
